&

Anglican Church of Rwanda - Shyogwe diocese (Mbayaya Farm & Demonstration Center)

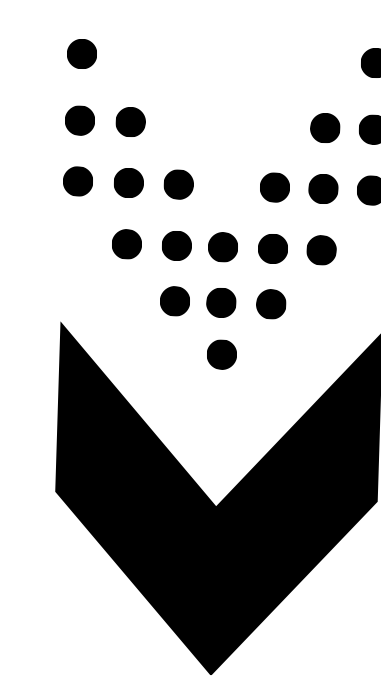

Financial Partner

United Evangelical Mission (UEM)

Our project compliments these Sustainable Development Goals

(SDGs): 1, 5, 7, 8, 13

About the Project

Our Climate-Smart Agriculture project's aims is to mitigate the impacts of climate change and to increase farmers' production in Rwanda.

Key Objectives

- To train farmers
- To introduce and to disseminate Greenhouse and Solar-powered Irrigation technologies
- To create employment
- To increase production
